Dear Sir:

Enclosed for filing in the above-identified application is a PTO/SB/08 Equivalent listing 42 references to be considered by the Examiner. Also enclosed are 4 foreign patent references and/or non-patent literature as listed on the Information Disclosure Statement.

Pursuant to 37 C.F.R. § 1.97(g) and (h), Applicants make no representation that the information is considered to be material to patentability. Additionally, inclusion on this list is not an admission that any of the cited documents are prior art in this application. Further, Applicants make no representation regarding the completeness of this list, or that better art does not exist.

Applicants further note that other pending applications and issued patents owned by Applicants may recite subject matter relevant to the claims of the present application. Applicants request the Examiner to consider the following Office Actions and associated responses by Applicants in each of the following cases when determining the patentability of the pending claims of the present application. While Applicants do not believe it necessary to individually list every Patent Office communication, along with Applicants' associated response, Applicants are doing so as a courtesy and request that the Examiner continue to monitor these applications.
